■ PROFILE

Product Designer specializing in complex enterprise architecture and high velocity workflows. I use AI-assisted design workflows and generative prototyping to accelerate research and prototyping, investing the saved time into validating human behavior and structuring massive design systems. Proven ability to execute zero UI interactions, overhaul SaaS ecosystems, and ship high fidelity conversational and graphical interfaces across global markets.

■ EXPERIENCE

UX Design Collaborator — Samsung R&D Institute

JUL 2026 – PRESENT

- Collaborating with Samsung R&D Institute Bangalore to create ambient sound intelligence features for the Galaxy ecosystem.
- Designing zero UI interactions and on device privacy models that translate everyday audio into meaningful, human centric device behaviors.

Product Designer — Webtel Electrosoft / HRTech

APR 2026 – JUL 2026

- Led a complete ecosystem overhaul for a massive enterprise HR and Payroll software suite.
- Consolidated fragmented HR and Payroll products into a cohesive design system, redesigning over 450 screens.
- Merged fragmented mobile applications, helping to expand total addressable market capture to 120 percent.

Freelance Designer — Independent Practice / FinTech · InsurTech

ONGOING

- Architecting digital ecosystems and enterprise interfaces for corporate clients including Centrum (FinTech) and Pramerica Life Insurance (InsurTech).
- Executing zero to one brand building, handling complete identity, packaging, and custom website development to help emerging brands gain market recognition.

UX Design Intern — Digital Obsession Communication

MAY 2025 – DEC 2025

- Designed and shipped live digital experiences for major enterprise clients including Jaypee Group, Mankind Pharma, and Indraprastha.
- Handled complete execution from qualitative research and competitive audits to high fidelity prototypes in Figma.
- Collaborated directly with developers and stakeholders across Jira and Slack to align complex interaction flows with strict business goals.

Young Jury — Awwwards

APR 2025 – PRESENT

- Evaluating and rating top tier digital experiences submitted by global agencies.
- Providing structured feedback on usability, creativity, visual quality, and innovation.
- Continuously analyzing global UX patterns and integrating cutting edge interaction trends into personal digital architecture.

Director's Assistant — HCI Professionals Association of India

FEB 2025 – JAN 2026

- Managed core operations for India's largest Human Computer Interaction community, supporting the Director with awards, certifications, and operational workflows.
- Coordinated documentation and timeline tracking in Notion while scaling internal processes and stakeholder communication.

■ **SELECTED PROJECTS**

The SaaS Dream

/ HRTECH · SAAS

A complete ecosystem overhaul for Webtel Electrosoft, consolidating three massive HR and Payroll products across web and mobile. Redesigned 450+ screens and unified mobile architecture around a single design system to capture a broader market.

CoLab

/ AI · CONVERSATIONAL UI

Engineered an early to market collaborative AI chatbot Figma extension for corporate teams, applying conversational UI patterns and achieving a Grade A System Usability Scale (SUS) score of 82.0.

Why Opening Up is Hard

/ DESIGN RESEARCH

A behavioral study mapping emotional vulnerability in Gen Z students. Developed a custom ideation framework to segment users by coping strategies and bypass surface level social masking.

behance.net/gallery/245840191 ↗

Perplexity Redesign

/ UX AUDIT · AI

A foundational UX audit of a complex AI search engine. Heavily applied Hick's Law and Fitts's Law to optimize cognitive ergonomics and reconstruct a highly scannable interface.

behance.net/gallery/222412833 ↗

■ **ACHIEVEMENTS**

2x First Place Winner — Samsung Designathon (2025 & 2026)

- 2026: Executed rapid problem solving and product innovation, developing intelligent workflows under strict 24 hour hackathon constraints.
- 2025: Designed a high fidelity multimodal interface for an Agentic AI travel planning system.

behance.net/gallery/235207603 ↗

■ **EDUCATION**

Bachelor of Design (BDes), UX Design

MIT Institute of Design

2023 – 2027

■ **SKILLS & TOOLS**

CORE

User Experience Design · Enterprise Architecture · Design Systems · Information Architecture · Interaction Design · Wireframing · High Fidelity Prototyping · Responsive Web Design · Accessibility

RESEARCH

Usability Testing · User Interviews · Personas · Journey Mapping · Heuristic Evaluation · A/B Testing · Surveys · Competitive Audits

AI

AI-Assisted Design Workflows · Generative Prototyping · Conversational UI · Agentic AI Interfaces

TOOLS

Figma · Antigravity · Jira · Notion · Slack · Adobe XD · Photoshop · Illustrator · After Effects · Blender

■ **CERTIFICATIONS**

Google UX Design Professional Certificate · Ab Initio Games as the Origin of HCI (HCIPAI) · Elements of AI (University of Helsinki) · Complete Figma Megacourse (Udemy) · Intro to UI UX Design (Le Wagon)
